Re: Notice of Potential Liability and Demand for Payment
F. J. Doyle Salvage Superfund Site
Leonard, Fannin County, Texas, SSID # 061D

Dear Sir/Madam:

Under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA, commonly known as the federal "Superfund" law), the United States Environmental Protection Agency (EPA) has the authority to respond to a release or threat of a release of hazardous substances, pollutants or contaminants into the environment – that is, for stopping further contamination from occurring and for cleaning up or otherwise addressing any contamination that has already occurred. EPA has documented that such a release has occurred at the F. J. Doyle Superfund Site in Leonard, Fannin County, Texas (Site). EPA has spent, or is considering spending, public funds to investigate and control releases of hazardous substances or potential releases of hazardous substances at the Site. Based on information presently available, EPA has determined that SWEPCO may be a potentially responsible party (PRP) under CERCLA for cleanup of the Site or for costs EPA has incurred in responding to the contamination on the Site.

Explanation of Potential Liability

Under Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), PRPs may be held liable for all costs incurred by the EPA (including interest) in responding to any release or threatened release of hazardous substances at the Site. PRPs include current and former owners and operators of the Site, as well as persons who arranged for treatment and/or disposal of any hazardous substances found at the Site, and persons who accepted hazardous substances for transport and selected the site to which the hazardous substances were delivered.

Based on the information collected, the EPA has determined that SWEPCO may be liable under Section 107(a) of CERCLA with respect to the Site as a generator who arranged for the disposal, treatment or transportation of hazardous substances at the Site. Specifically, the EPA has reason to believe that SWEPCO arranged for the disposal, treatment, or transportation of electrical transformers containing polychlorinated biphenyls (PCBs) to the Site. Enclosure 1 is a copy of the evidence on SWEPCO's involvement with the Site.

Background

To date, the EPA has taken response actions at the Site under the authority of the Superfund Program. Below is a brief description of the actions taken at the Site:

- In May 2015, the Texas Commission on Environmental Quality referred the Site to the EPA.
- In May 2018, the EPA investigated the surface and sub-surface soils to determine the lateral and vertical extent of contamination at the Site and surrounding areas.
- The EPA conducted a removal action at the Site beginning on November 5, 2018, removing and disposing of PCB-contaminated soils and building elements.

Demand for Payment

In accordance with Section 104 of CERCLA, 42 U.S.C. § 9604, the EPA has already taken certain response actions, which are listed above, and incurred certain costs in response to conditions at the Site. The EPA is seeking to recover from PRPs the response costs and all the interest expended at the Site and authorized to be recovered under Section 107(a) of CERCLA. The total response costs identified through August 31, 2020, for the Site are \$3,833,694.38. Under Section 107(a) of CERCLA, EPA hereby makes a demand for payment from you and other PRPs for the above amount plus all interest authorized to be recovered under Section 107(a) of CERCLA. A summary of these costs reported through August 31, 2020, is enclosed as Enclosure 2.

The EPA would like to encourage communication between you, other PRPs and the EPA regarding the Site and this demand for payment. To assist you in your efforts to communicate, please find in Enclosure 3 a list of names and addresses of PRPs to whom this letter is being sent.

Ability to Pay Settlement

While this letter demands that SWEPCO reimburse the EPA for all funds spent at the Site, the EPA is aware that the financial ability of some PRPs to contribute toward the payment of response costs at a site may be substantially limited. If you believe, and can document, that you fall within this category, please contact Mr. David Eppler by phone at 214-665-6529 or via email at eppler.david@epa.gov for information on ability to pay settlements. In response, you will receive a package of information about such settlements and a form to fill out with information about your finances, and you will be asked to

submit financial records including federal tax returns. If the EPA concludes that SWEPCO has a legitimate inability to pay the full amount demanded, the EPA may offer a schedule for payment over time or a reduction in the total amount demanded from you.

Some or all of the costs associated with this notice may be covered by current or past insurance policies issued to SWEPCO. Most insurance policies will require that you timely notify your carrier(s) of a claim against you. To evaluate whether you should notify your insurance carrier(s) of this demand, you may wish to review current and past policies, beginning with the date of SWEPCO's first contact with the F. J. Doyle Site. Coverage depends on many factors, such as the language of the particular policy and state law.

Also, please note that, because the EPA has a potential claim against you, you must include the EPA as a creditor if you file for bankruptcy. The EPA reserves the right to file a proof of claim or an application for reimbursement of administrative expenses.

Resources and Information for Small Businesses

In January of 2002, President Bush signed into law the Superfund Small Business Liability Relief and Brownfields Revitalization Act. This Act contains several exemptions and defenses to CERCLA liability, which we suggest that all parties evaluate. You may obtain a copy of the law at <http://www.gpo.gov/fdsys/pkg/PLAW-107publ118/pdf/PLAW-107publ118.pdf> and review the EPA guidance regarding these exemptions at <http://cfpub.epa.gov/compliance/resources/policies/cleanup/superfund/>

The EPA has also created a number of helpful resources for small businesses. The EPA has established the National Compliance Assistance Clearinghouse as well as Compliance Assistance Centers which offer various forms of resources to small businesses. You may inquire about these resources at <http://www.epa.gov/compliance/compliance-assistance-centers>. In addition, the EPA Small Business Ombudsman may be contacted at <http://www.epa.gov/resources-small-businesses/forms/contact-us-about-resources-small-businesses>. Finally, the EPA has developed a fact sheet about the Small Business Regulatory Enforcement Fairness Act ("SBREFA") and information on resources for small businesses, which is included with Enclosure 4 with this letter and available on the Agency's website at <http://www.epa.gov/compliance/small-business-resources-information-sheet>.

Your Response

Please send a written response to this cost recovery demand, within thirty (30) days of receipt of this letter, to:

Mr. David Eppler (SEDAE)
Enforcement Officer
Superfund and Emergency Management Division, Cost Recovery Section
U.S. EPA, Region 6
1201 Elm St, Suite 500
Dallas, Texas 75270
Telephone: (214) 665-6529
Email: eppler.david@epa.gov

If a response from you is not received within thirty (30) days, the EPA will assume that you have declined to reimburse the Superfund for the Site response costs, and the EPA will evaluate its enforcement options pursuant to CERCLA accordingly.

If you have questions regarding the response actions taken at the Site, please contact Mr. David Eppler at 214-665-6529. If you or your attorney have legal questions, please direct them to Mr. Leonard Schilling, Superfund Attorney, at 214-665-7166 or schilling.leonard@epa.gov.

Thank you for your prompt attention to this matter.

Sincerely yours,

**WREN

ENCLOSURE 1

EVIDENCE OF LIABILITY
F. J. DOYLE SALVAGE SUPERFUND SITE

CHRONOLOGY OF FRANK J. DOYLE & SONS TRANSFORMERS

- A PCB Inspection was conducted on 8/30/83. At the time of the inspection, the facility had 150 transformers, 100 empty casings transformer parts and 1-500 gallon and 1-900 gallon storage tanks. No PCB records of transactions were kept. Five samples were collected (2 from oil tanks and 3 soil samples from various areas of the site). One oil sample, from a 500 gallon tank, contained 82 ppm PCB and one soil sample from the SW. corner of the lot, contained 61 ppm PCB. Based on pictures taken during the time of the inspection, visible oil stains were seen at the site. In addition, no fence was around the facility. The facility had been in operation since about 1979.

- On January 25, 1984 a Civil Complaint was issued to the facility for failure to mark the 500 gallon tank, failure to prepare and implement an SPCC plan and failure to keep batch records for the 500 gallon tank. The total proposed penalty was \$3,000. This matter was settled with a CA/CO on May 3, 1985, where the Respondent paid a final penalty of \$50.00, based on inability to pay.

- On September 28, 1990 the EPA Emergency Response Branch (ERB) Technical Assistance Team (TAT) performed a site assessment at the facility in response to a citizens complaint concerning the improper handling and salvage of transformers. This complaint originally came into the EPA TSCA program and it was referred to ERB. The purpose of the 9/28/90 site visit was to perform PCB screening of oil and soil using CHLOR-N-OIL (TM) AND CHLOR-N-SOIL (TM) test kits. TAT observed 1-500 gallon tank, 1-900 gallon tank and 14-55 gallon drums that were being used for storage of transformer oil. Both tanks and all the 55 gallon drums were filled to capacity with transformer oil. Stored onsite were approximately 200-300 transformers to be salvaged. Two oil samples and three soil samples were collected and screened. One soil sample of a stained area at the northeast corner of the site and two oil samples from the 900 gallon storage tank and a 55 gallon drum all tested positive for PCBs above 50 ppm.

- On October 12, 1990 a PCB inspection, in addition to further sampling by the TAT, were conducted at the site. Of the 14-55 gallon drums that were present at the site on 9/28/90, only one drum contained oil. Both of the 900 and the 500 gallon tanks had been drained of oil and were in the process of being refilled. Again the TAT screened oil samples from transformers and the tanks. Fourteen samples were screened and five samples of the fourteen were sent for analysis. Two sweep samples were taken from the transformer dismantling building at unbiased locations. Two wipe

9457024

samples were collected from the kiln located in the dismantling building for PCB and dioxin analysis. Offsite grab surface samples were collected at the Doyle residence, [Ex. 6 Personal Privacy (PP)] residence, drainage pathways adjacent to the site and drainage pathways in the school yard. A background grab surface soil sample was collected from the school practice field. All samples were collected for PCB analysis and two samples [Ex. 6 Personal Privacy (PP)] residence and school yard) were collected for dioxin analysis. Offsite wipe samples were collected at the Doyle residence, [Ex. 6 Personal Privacy (PP)] residence, and at the school building for dioxin analysis.

All samples analyzed for dioxin were non detect. Three sample sites contained PCBs greater than 50 ppm. Those were the Salvage Yard- North grid (89 ppm), Salvage Yard- South Grid (71 ppm) and the drainage pathway south of the site (280 ppm).

It was determined during this inspection that Mr. Doyle bought used transformers from only four sources, which were Southwestern Electric Power Co. (SWEPCO), City of Garland, Texas, Louisiana Power & Light and Public Service of Oklahoma. He had a heat cleaning oven for drying and removing transformer core residue to simplify removal of copper. The oven had a Texas Air Control Board permit. All of the scrap metal was sold to McKinney Metals. All transformer oil was sold to Scoggins Oil Co., Sallisaw, Okla.

- On 7/26/90 a PCB Inspection was conducted at McKinney Metals, McKinney, Texas. Based on the inspection findings, it was determined that Frank Doyle is the primary supplier of transformer cans and burned windings. Frank Doyle did not supply certifications or test results with this equipment. A sample was taken at the prepared ferrous and shearing area, where earlier that day several empty transformer cans had arrived from Frank Doyle. This sample contained 86.3 ppm PCB.

- On April 19, 1991 the TAT went back to the site to collect further samples from the drainage ditch. Four composite and one grab sample was taken for PCB analysis. Three of the samples contained PCBs in excess of 50 ppm (58 ppm, 271 ppm and 166 ppm). The ERB referred this case back to TSCA in July, 1991.

- On September 7, 1994 a PCB Inspection was conducted at the facility. At the time of the inspection, the facility had 11 drums of brass material, 91 drums of scrap metal, 751 empty transformers and 3 oil storage tanks (2-500 gallon and 1-275 gallon) at the facility. The transformers are now mainly purchased from Louisiana Power & Light and SWEPCO. The oil is still sold to John Scoggins and the scrap metal is sold to McKinney Metals. Four samples were taken during the inspection for PCB analysis. One soil sample taken from outside the fence in a drainage pathway between the fence and the road across the street from the school contained 11.8 ppm PCB.

- On January 25, 1995 a letter was sent to Mr. Doyle informing him of the PCB contamination at his site and soliciting his intentions in regards to characterization and, if appropriate, cleanup.
- On February 15, 1995 Worldwide Reclamation, contractor for Mr. Doyle, obtains surface samples of the site. This contractor does not consult with EPA before obtaining samples. All sample results were non-detect.
- On March 9, 1995 EPA conducts a site visit to meet with Mr. Doyle and Worldwide Reclamation to discuss further sampling of the site.
- On May 23-24, 1995 Worldwide Reclamation conducts sampling at the site. The number of samples taken during this time was restricted based on Mr. Doyle's financial status.
- On June 21, 1995 a meeting is held at the Frank Doyle site to discuss the sampling results and to discuss the need for a timely remediation response. Mr. Doyle was given until 6/27/95 to decide whether he was going to take responsibility for the cleanup.
- On June 27, 1995, based on a phone conversation with Mr. Doyle, he stated that he could not take responsibility for remediation efforts based on inability-to-pay.

This Agreement made and entered into by and between SOUTHWESTERN ELECTRIC POWER COMPANY, a Delaware Corporation, party of the first part, hereinafter called "COMPANY," and Frank J. Doyle Corporation _____ (Name of organization), a scrap metal recycler (Type of Organization), authorized to do business in Texas _____ (State), domiciled at 305 Cottonwood _____ (Street), Leonard, Texas 75452 _____ (City, State, and Zip Code), party of the second part, operating as a Contractor, hereinafter called the "CONTRACTOR."

WITNESSETH THAT: for and in consideration of the premises and the mutual agreement and undertakings of the parties hereto, the CONTRACTOR agrees to the following terms and conditions:

(1) The CONTRACTOR agrees to furnish all labor, tools, and equipment, and to pay all expenses necessary for performing miscellaneous work to include purchasing of scrap transformers to be loaded on trailers furnished by F. J. Doyle _____

_____ or similar jobs as authorized by the Manager of Electric Systems, G. O. Section Manager, or their designated representative.

(2) The CONTRACTOR shall secure all permits and licenses imposed by law, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of his work. The CONTRACTOR shall also contract other contractors and utilities working in the area where the work is being done and attempt to coordinate his work with theirs.

(3) The CONTRACTOR shall not obligate the COMPANY to make any payments to another party, nor make any promises or representations of any nature to another party for, or in behalf of, the COMPANY without the written approval of the COMPANY.

(4) The CONTRACTOR agrees to provide and install all barricades, warning signs, flashers, etc., that may be required to protect and/or warn the public of open ditches or any other hazard created by the performance of his work.

(5) To the maximum extent permitted by law and in consideration of the benefits received under this contract, CONTRACTOR agrees that, as between itself and COMPANY, on behalf of itself and its insurers, it will defend, indemnify and hold COMPANY and COMPANY'S insurers, affiliates, directors, officers, employees, and agents (collectively "COMPANY") harmless from and against any and all claims, loss, liability, costs, damage, expenses (including but not limited to, reasonable attorney's fees and court costs) and obligations arising out of (a) any breach by CONTRACTOR of any of its representations, warranties, covenants or other agreements under this contract or (b) any personal injury or death of persons (including but not limited to injuries or death of employees, or agents of COMPANY, CONTRACTOR, or any SUBCONTRACTOR) or damage to or destruction of any property resulting from any occurrence, including but not limited to environmental damage in any way related to or arising out of the performance of the contract. In this respect, CONTRACTOR agrees to indemnify and hold COMPANY harmless from any acts or omissions, alleged or found to constitute negligence or other fault, caused directly or indirectly or solely by the COMPANY, its directors, officers, employees, or agents or jointly by the COMPANY, its directors, officers, employees, or agents and the CONTRACTOR, its agents, representatives, employees or SUBCONTRACTORS; or solely by the CONTRACTOR, its agents, representatives, employees or

000003

SUBCONTRACTORS. The CONTRACTOR agrees that it is the specific intent of CONTRACTOR to indemnify the COMPANY from the negligent acts or omissions of the COMPANY representatives, agents, employees, officers or directors, and whether caused directly or indirectly by the negligence of the COMPANY, its officers, agents, directors, representatives and/or employees; providing nothing herein shall create an obligation of CONTRACTOR to indemnify and hold harmless COMPANY from any claim, loss, liability, costs, damage or expense resulting from the willful and wanton negligence of COMPANY.

(6) In the event and to the extent that a claim is made by an employee of CONTRACTOR or any SUBCONTRACTOR against COMPANY or against any of COMPANY'S corporate affiliates, directors, officers, employees, agents or independent contractors, the intent of the preceding paragraph is that CONTRACTOR shall and hereby agrees to indemnify COMPANY, its corporate affiliates, directors, officers, employees, and agents to the same extent as if the claim was made by a nonemployee of CONTRACTOR or SUBCONTRACTOR. Accordingly, in addition to other provisions herein and in order to render the parties' intent of this indemnification covenant fully enforceable, CONTRACTOR, to the limited extent of an indemnification claim hereunder, expressly and without reservation waives any defense or immunity it may have under any applicable workers' compensation laws or any other statute of judicial decision disallowing or limiting such indemnification and consents to a cause of action for indemnity.

(7) In the event that CONTRACTOR or CONTRACTOR'S insurance company fails to undertake the defense of any suit or claim arising out of this contract and for which CONTRACTOR owes the duty of indemnification, or undertakes any such defense on a delayed, conditional, restricted or qualified basis, and the COMPANY, in its sole discretion, thus finds it necessary to employ attorneys, investigators, expert witnesses and do such other things as are reasonably necessary to investigate and/or defend the claim or suit, then, in such event, CONTRACTOR obligates itself to pay any and all such costs and expenses, including court costs as may have been reasonably incurred by the COMPANY.

(8) The CONTRACTOR further agrees to save the COMPANY harmless from the payment of any contribution under the State Unemployment Compensation Act, and CONTRACTOR agrees that if it is subject to the State Unemployment Compensation Act, it will make whatever contributions are required under and by virtue of the provision of said Act to the proper authorities. CONTRACTOR shall furnish the COMPANY with proof that the Social Security has been paid and that all of its employees have been paid.

(9) The CONTRACTOR shall furnish evidence that the following insurance requirements have been complied with:

KIND	LIMITS OF LIABILITY
(A) Public Liability	\$500,000
(B) Motor Vehicle Liability	\$500,000

(10) Should CONTRACTOR fail to prosecute the work to the satisfaction of the COMPANY or to comply with any of the provisions of this agreement, the COMPANY may terminate this agreement upon twenty-four (24) hours' written notice to the CONTRACTOR.

(11) Payment by the COMPANY to the CONTRACTOR for work herein provided to be done shall be upon the following basis:
See Exhibit "I", attached.

(12) It is understood and agreed by and between the parties hereto that the CONTRACTOR herein is an independent CONTRACTOR and not an agent or employee of the COMPANY, that the CONTRACTOR shall employ, direct, control, supervise, manage, discharge and pay his own employees; that the COMPANY shall have no control of, or supervision over, the employees of the CONTRACTOR; that the CONTRACTOR is responsible to the COMPANY only for the furnishing of the proper tools and equipment, adequate crew supervision, and doing of the work called for in the contract in a good and workmanlike manner, and in accordance with the terms of the contract and to the satisfaction of the COMPANY.

(13) Approval by the COMPANY as required by sections of the Agreement shall be interpreted to mean approval by the COMPANY'S Manager of Electric Systems, G. O. Section Manager, or his designated representative.

(14) The CONTRACTOR specifically warrants and agrees CONTRACTOR will be solely and exclusively responsible for compensating any of CONTRACTOR'S employees, subcontractors, materialmen and/or suppliers of any type or nature whatsoever and that no claims or liens of any type will be filed against any property owned by SWEPCO arising out of or incidental to the performance of any services performed pursuant to this contract. In the event a lien is filed, the CONTRACTOR agrees, upon written notice from SWEPCO, to immediately obtain a bond at its expense so as to bond the property free and clear from the said lien and hold SWEPCO harmless from any losses that may result from the filing or enforcement of said lien.

(15) The CONTRACTOR covenants, represents, and warrants:

(a) That all applicable provisions of Executive Order No. 11,246, dated September 24, 1965, the Rules and Regulations promulgated thereunder by the Office of Federal Contract Compliance of the United States Department of Labor, and all applicable requirements of the Equal Employment Opportunities Subchapter of the Civil Rights Act of 1964 and Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 and Section 503 of the Rehabilitation Act of 1973 will be fully met and observed in respect to the performance of services covered by this contract;

(b) That it has taken affirmative action to ensure that applicants for employment by it and its employees are dealt with without regard to race, color, religion, sex, or national origin.

(16) This contract shall cover :

a 24-month period from September 1, 1994 through August 31, 1996.

IN WITNESS WHEREOF: the parties hereto have caused this Agreement to be executed in duplicate by their proper officers this the 10 day of AUGUST 19 94.

Field Log Book for SSI
Frank J. Doyle Transform Site

TXD
Soring Site Inspector

12:30 pm - Aug 01 - Arrived at City Hall and met Gary Hayslip, R4 Field Investigator to conduct site reconnaissance.

12:40 pm - Aug 01 - Conducted safety brief for reconnaissance.

Field Team Members:

	<u>NAME</u>	<u>Phone No.</u>
1.	Det James D. Thompson	Field Investigator (817) 462-6450
2.	Det Gary Hayslip	Field Investigator (903) 535-5168
3.	Det Abbie Power	Field Investigator (512) 239-2533
4.	Det Ray Newby	Field Investigator (512) 239-4132

Off Site Reconnaissance - Frank J. Doyle - Newby
Drinking Water Wells

Workday - Aug 01

01/02/98 12:00 pm - Met Charles Cooper, Public Works Director, City of Sevier, at City Hall. Went to Pump Station No. 1 located at the intersection of Ex. 9 Wells. Well involved in a pump house. Hose from well head can be used to collect sample. Requested hose be connected to purge the well for 15 minutes tomorrow. No problems sampling well anticipated.

1:15 - Went to Pump Station No. 2 well located along Ex. 9 Wells. Again well in a pump house. Plastic 3/4" piping from well head can be used for sample collection point. Both wells can be sampled prior to chlorination.

James Doyle 1/02/98

1/12/98 - Day 01 (continued)

On-Site Reconnaissance

13:30 - Arrived at the F.J. Doyle Transformer Site and contacted Frank Doyle and his son Gary Doyle. Introduced team member and stated purpose of the inspection. Conducted interview with Mr. Frank and Gary Doyle:

- facility was used as a horse barn prior to Mr. Frank Doyle beginning salvage operations late 1975 to early 1976.
- Former transformer suppliers were Public Service of Oklahoma, Texas Power & Light.
- only supplier now is SWELCO.
- all transformers are received already drained and only residuals are collected. all transformers are tested prior to receipt from the suppliers.
- sizes range from 1/2 KVA to 500 KVA
average size is 25-50 KVA
- approximately 100 transformers were noted on-site stored outside and around perimeter fence. Also located.

Operational Procedures:

1. Transformer received in N. off-load area and stored along fence prior to processing.
2. Transformer lifted by fork lift to inside shop.
3. Oil drained by hand operated pump to collection drums.
4. Copper / aluminum core removed and placed on derrick tray to dry dry. Collected oil poured to collection drum (satellite storage container), usually 55-gal drum.
5. Metal base/casing removed and copper core placed in oven and baked. Smoke goes from wood stove.
6. Baked core collected in bin for recycling.

Please prepare a bid request for scrap transformers generated by SWEPCO. The present contract with F. J. Doyle scrap metal expires May 31, 1991.

I am including a revised copy of the bid letter from 1989, a suggested bidders list and a blank contract (M 91) to be included with each bid request. I recommend that the contract be for one year with an option to extend for an additional year. Once the successful bidder is selected, an environmental audit of that facility might be required to ensure that materials are handled in an environmentally sound manner. Note that Yaffee Iron & Metal Company, Inc. was not included on the bidders list because of problems found during an environmental assessment visit in 1989 by Bruce Wright.

costs in any way caused by or arising out of the performance of this contract including, but not limited to, claims for death, personal injury or property damage. CONTRACTOR further agrees to hold the COMPANY harmless in the premises not only for all claims, suits, judgments or costs in any way caused by or arising out of the performance of this contract by the CONTRACTOR, or by third persons, but also will hold the COMPANY harmless from any acts or omissions caused directly or indirectly by the COMPANY, its agents or employees, willful and wanton negligence excepted.

(6) The CONTRACTOR expressly agrees that he shall indemnify, defend at his expense and completely hold harmless the COMPANY, its successors and/or assigns, from any and all claims of any type or nature whatsoever for damage to property resulting from any actions or inactions on the part of the CONTRACTOR, including but not limited to any claims for damages to crops, fences, land, waterways, livestock, woodland, buildings or improvements and specifically including any and all environmental claims. For purposes of this indemnification agreement, environmental claims include any and all claims asserted by any person or entity pursuant to any present or future federal, state or municipal laws, statutes, ordinances or regulations in any manner governing or affecting the environment or hazardous substances or wastes. The CONTRACTOR shall immediately assume the defense of such claims upon receipt of notice from the COMPANY.

(7) The CONTRACTOR further agrees to save the COMPANY harmless from the payment of any contribution under the State Unemployment Compensation Act, and CONTRACTOR agrees that if it is subject to the State Unemployment Act, it will make whatever contributions are required under and by virtue of the provision of said Act to the proper authorities. CONTRACTOR shall furnish the COMPANY with proof that the Social Security has been paid and that all of its employees have been paid.

(8) The CONTRACTOR shall furnish evidence that the following insurance requirements have been complied with:

<u>KIND</u>	<u>LIMITS OF LIABILITY</u>
(A) Public Liability	\$500,000
(B) Motor Vehicle Liability	\$500,000

In the event that CONTRACTOR's insurance company undertakes the defense of any suit or claim arising out of this contract on any conditional, restricted or qualified basis, and the COMPANY, in order to properly protect its interests, thus finds it necessary to employ attorneys, investigators, expert witnesses, and do such other things as are reasonably necessary to investigate and/or defend the claim or suit, then, in such event, CONTRACTOR obligates itself to pay all of such cost and expense, including court costs, as may have been reasonably incurred by COMPANY.

(9) Should CONTRACTOR fail to prosecute the work to the satisfaction of the COMPANY or to comply with any of the provisions of this agreement, the COMPANY may terminate this agreement upon twenty-four hours' written notice to the CONTRACTOR.

(10) Payment by the COMPANY to the CONTRACTOR for work herein provided to be done shall be upon the following basis:

(11) It is understood and agreed by and between the parties hereto that the CONTRACTOR herein is an independent CONTRACTOR and not an agent or employee of the COMPANY, that the CONTRACTOR shall employ, direct, control, supervise, manage, discharge and pay his own employees; that the COMPANY shall have no control of, or supervision over, the employees of the CONTRACTOR; that the CONTRACTOR is responsible to the COMPANY only for the furnishing of the proper tools and equipment, adequate crew supervision, and doing of the work called for in the contract in a good and workmanlike manner, and in accordance with the terms of the contract and to the satisfaction of the COMPANY.

(12) Approval by the COMPANY as required by sections of the Agreement shall be interpreted to mean approval by the COMPANY'S Division Superintendent, or his designated representative.

(13) The CONTRACTOR covenants, represents, and warrants:

(a) That all applicable provisions of Executive Order No. 11,246, dated September 24, 1965, the Rules and Regulations promulgated thereunder by the Office of Federal Contract Compliance of the United States Department of Labor, and all applicable requirements of the Equal Employment Opportunities Subchapter of the Civil Rights Act of 1964 and Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 and Section 503 of the Rehabilitation of 1973 will be fully met and observed in respect to the performance of services covered by this contract;

(B) That it has taken affirmative action to insure that applicants for employment by it and its employees are dealt with without regard to race, color, religion, sex, or national origin.

(13) This contract shall cover request for

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

DATE: August 26, 1983

SUBJECT: PCB Inspection Request - Transformer Salvage Operation, Leonard, Texas

FROM: Norman Dyer, Chief *Norman Dyer*
Pesticides & Toxic Substances Branch, 6AW-P

TO: James Stiebing, Chief
Surveillance Branch, 6ES-S

We request an inspection as soon as practical of a transform salvaging operation on a vacant lot adjacent to the high school in Leonard, Texas. Leonard is in Fannin County and the school is near the intersection of Hwys 78 & 69.

According to our informant, there are at least 100 transformers on this lot, and the oil from the transformers is being dumped on the ground. The person responsible for this activity is unknown at this time.

In addition to documenting the presence of PCBs by examining manufacturer's plates and sampling, the inspector should determine when the salvaging operation began at this location. The source of the transformers should be determined, and we would like to know if any analytical data is available on them.

Type of Facility (Utility, Salvage Yard, Refinery, etc.)

SECTION B. INSPECTION/REVIEW/COMMENTS

INSPECTED BY: R. P. McLaughlin 6ES-SH 30 August 1983
(Signature) (Agency & Date)

REVIEWED BY: Dave Peters 6ES-SH
(Signature) (Agency & Date)

COMMENTS: This inspection was conducted as the result of a request from the Regional Program Office acting on an informant complaint. (Copy attached). The lot in question is a corner lot of Cottonwood St and Poplar St. Approximately 90' deep and 180' wide.

Frank Doyle began a salvage/junk operation about five years ago. He buys old/used transformers through bids from various sources. Three sources according to Mr Doyle were: Southwestern Electric Power Company, Longview, TX; City of Garland, TX; and Floydada Lighthouse, TX. He stated he buys them through the bid process and he is supposed to be assured they are non-PCB. Most of the time, he stated, the transformers are drained of oil. He drains those with oil into two tanks on the property, 1-500 gal and/or 1-900 gal tank. About once each year the oil is sold to John Scoggins, Oklahoma.

N/A (Not Applicable)

(over)

C/A (Comments Attached)

(9/82)

No analysis of the oil takes place since he is supposedly assured that the oil contains non-PCBs. He said that bids are mailed to addressees who deal with transformer salvage and get their name on the mailing lists. He said he did not keep paperwork on these transactions but that I could probably get sales slips, etc., from the selling source.

On the lot as the photos will show there were about 150 transformers, 100 empty casings, and transformers parts (coils, etc), plus the two oil storage tanks. Oil samples were collected from each tank and soil samples were collected from three ground stains. Samples were shipped to the Houston Lab for analysis.

Of special note here is that Scoggins of Oklahoma is the buyer of his waste oil. He said he sells to no one else and that it amounts to about 1400 gallons per year. (Reference TSCA Docket No VI-15C)

REASON FOR INSPECTION

Under the authority of Section 11 of the Toxic Substance Control Act

☒

For the purpose of inspecting (including taking samples, photographs, statements, and other inspection activities) an establishment, facility, or other premises in which chemical substances or mixtures or articles containing same are manufactured processed or stored, or held before or after their distribution in commerce (Including records, files, papers, processes, controls, and facilities) and any conveyance being used to transport chemical substances, mixtures, or articles containing same in connection with their distribution in commerce (including records, files, papers, processes, controls, and facilities) bearing on whether the requirements of the Act applicable to the chemical substances, mixtures, or articles within or associated with such premises or conveyance have been compiled with.

☐

In addition, this inspection extends to (circle appropriate letters):

|--------------------|--------------------|
| (A) Financial data | (D) Personnel data |
| (B) Sales data | (E) Research data |
| (C) Pricing data | |

The nature and extent of inspection of such data specified in A through E above as follows:

TSCA Inspection
Confidentiality Notice

It is possible that EPA will receive public requests for release of the information obtained during inspection of the facility above. Such requests will be handled by EPA in accordance with provisions of the Freedom of Information Act (FOIA), 6 U.S.C. 552; EPA regulations issued thereunder, 40 CFR Part 2; and the Toxic Substances Control Act, Section 14. EPA is required to make inspection data available in response to FOIA requests unless the Administrator of the Agency determines that the data contains information entitled to confidential treatment.

Any or all the information collected by EPA during the inspection may be claimed confidential if it relates to trade secrets or commercial or financial matters that you consider to be confidential. If you make claims of confidentiality, EPA will disclose the information only to the extent, and by means of the procedures, set forth in the regulations (cited above) governing EPA treatment of confidential information. Among other things, the regulations require that EPA notify you in advance of publicly disclosing any information you have claimed and certified confidential.

To Claim Confidential Information

To claim information confidential, you must certify that each claimed item meets all of the following criteria:

1. Your company has taken measures to protect the confidentiality of the information, and it intends to continue to take such measures.
2. The information is not, and has not been, reasonably obtainable without your company's consent by other persons (other than governmental bodies) by use of legitimate means (other than discovery based on a showing of special need in a judicial or quasi-judicial proceeding).

To be completed by facility official receiving these notices.

I have received and read the Notice of Inspection and Confidentiality Notice.

Frank P. Doyle

Name	Frank P. Doyle
Title	Property Owner
Signature	
Date	08-30-83

3. The information is not publicly available elsewhere.
4. Disclosure of the information would cause substantial harm to your company's competitive position.

At the completion of the inspection, you will be given a receipt for all documents, samples, and other materials collected. At that time, you may make claims that some or all of the information is confidential and meets the four criteria listed above.

If you are not authorized by your company to make confidentiality claims, this notice will be sent by certified mail, along with the receipt for documents, samples, and other materials to the Chief Executive Officer of your firm within two days of this date. The Chief Executive Officer must return a statement specifying any information which should receive confidential treatment.

The statement from the Chief Executive Officer should be addressed to:

John West, DCO (6AW-P)
EPA Region 6
1201 Elm Street
Dallas, Texas 75270

and mailed by registered, return-receipt-requested mail within seven (7) calendar days of receipt of this Notice.

Failure by your firm to submit a written request that information be treated as confidential, either at the completion of the inspection or by the Chief Executive Officer within the seven-day period, will be treated by EPA as a waiver by your company of any claims for confidentiality regarding the inspection data.

If there is no one on the premises of the facility who is authorized to make business confidentiality claims for the firm, a copy of this Notice and other inspection materials will be sent to the company's chief executive officer. If there is another company official who should also receive this information, please designate below.

I thought it interesting that you requested an audit on this facility and I was not at least notified!
Ward M.
7/24/93

FOR COMPANY BUSINESS ONLY

SUBJECT: F.J. Doyle Junk Transformer Salvage Audit

DATE: July 8, 1993

FROM:	John Flood	252	Environmental	Arsenal Hill
		EXT.	DEPT.	LOCATION/ROOM
TO:	Frank Bryan		Construction	412M
			DEPT.	LOCATION/ROOM

At your request, Brian Whatley and I conducted an audit of F.J. Doyle Junk Transformer Salvage in Leonard, Texas on June 24, 1993. Mr. Doyle accompanied us on the facility inspection and afterwards answered our questions satisfactorily.

Our impressions of his business are:

1. The site is small but fairly well maintained considering the nature of his business. He had recently constructed a concrete containment structure around his aboveground waste transformer oil tanks and indicated that he planned to build a roof over the area. His tanks do not meet the minimum volume requirements for an SPCC plan. We were able to identify many transformers on his yard that came from SWEPCO. His primary business is metal recovery from the transformers; however, some transformers are taken to rewinders then sold for reuse.
2. Several wastes are generated in the transformer dismantling and metal recovery processes. One is ash from a burn-out oven and the other is waste transformer oil. These wastes are regulated under the Texas Water Commission (TWC) Industrial Solid Waste Regulations. Mr. Doyle does not have the proper registrations nor waste management controls in place to properly manage these wastes.
3. Mr. Doyle does not have an adequate recordkeeping system. He told us that he receives documentation with each load of transformers stating that the PCB concentration of each unit is < 50 ppm PCBs. However, he only keeps these records until the transformers are paid for. Two or three years ago he was inspected by EPA or TWC (he was not sure which one). When the inspectors arrived at his site, one of them suited up and they began collecting soil samples around his transformer storage yard and home. Sometime later he was notified that the samples were clean. He did not have the names of the inspectors, which agency they were from, photos, or a report of the inspection.

In order for us to recommend that SWEPCO continue doing business with F.J. Doyle, we feel that Mr. Doyle should:

1. Obtain a Texas Water Commission generator ID number for generating solid waste in Texas.

Mr. F.J. Doyle
F.J. Doyle Scrap Metal
P.O. Box 312
Leonard, TX 75452

Dear Mr. Doyle:

You are invited to bid on our Scrap Transformer Program for the period March 15, 1989 through March 15, 1990, with an option year through March 15, 1991.

- 1) QUANTITY - Our volume of scrap transformers is expected to be approximately 800 to 900 units per year. These figures are estimates only.
- 2) SIZE & TYPE - Scrap transformers generally vary in size from 1 kVA to 1,000 kVA, with an occasional larger unit. Most of these units will be pole type transformers, with some 1Ø pad-mounted units and a few 3Ø pad-mounted units.
- 3) LOCATIONS - Scrap transformers will be collected by SWEPCO at the following locations:
 - a) 6130 Union Street
Shreveport, LA 71108
 - b) 1221 Karnes Road
Longview, TX 75604
 - c) 3708 West 7th Street
Texarkana, TX 75501
 - d) 101 W. Township St.
Fayetteville, AR 72703
- 4) CONDITION OF UNITS - All scrap transformers will be drained of oil by SWEPCO prior to shipment to dealers' facilities. Some units may contain residual oil only. Only units tested at less than 50 ppm PCB content will be scrapped.
- 5) DISPOSAL - All transformers shipped to the scrap facility are to be dismantled and processed as scrap material only. No transformers are to be reused or resold intact to another party.
- 6) PRICES - Bids are requested based on the following closing prices as published in American Metal Market:

Refiners Copper Scrap - Light Copper
Brass Ingot Makers Scrap - Yellow Brass Solids
Secondary Smelters' Scrap Aluminum - Mixed Clips
Scrap Iron & Steel - No. 2 heavy melt - St. Louis

000138

The figures used shall be those published the Monday following the date transformers are picked up.

Optional pricing methods will be considered; however, bids based on these closing prices are also requested to aid with fair evaluations.

- 7) OPTIONAL TRAILERS - As an option, empty flatbed trailers are requested for each location so that units to be scrapped can be loaded on an as needed basis. The dealer will be notified when the trailer is filled. An empty trailer is to be delivered when the filled trailer is picked up. It shall be the responsibility of the dealers driver to secure all units prior to leaving SWEPCO's property.
- 8) PAYMENTS - Payments for all scrap transformers are to be made within thirty (30) days after units are picked up. All payments should be made by check payable to SWEPCO, mailed to Purchasing Department, P.O. Box 21106, Shreveport, LA 71156. The total number of units picked up and the location of the units must be included with the payment.
- 9) CONTRACT - This work will be covered by the enclosed general contract (M-89). Please refer to it for general terms and conditions, insurance requirements, etc.

Bids must be received in SWEPCO's Purchasing Department on or before 2:00 p.m., March 7, 1989, if they are to receive consideration. Please seal you bid in the enclosed envelope and return it to me at the above address.

Bids will be opened privately at 2:00 p.m., March 7, 1989. We reserve the right to reject any and all proposals. If you have any questions, please call me at (318) 222-2141, extension 332 or Ward Martaindale, extension 416.

Sincerely,

Robert D. Mabry

Leonard, TX 75452

Dear Mr. Doyle:

You are invited to bid on our Scrap Transformer Program for the period ~~March 15, 1989~~ through ~~March 15, 1990~~ with an option year through ~~March 15, 1991~~.

- 1) QUANTITY - Our volume of scrap transformers is expected to be approximately 800 to 900 units per year. These figures are estimates only.
- 2) SIZE & TYPE - Scrap transformers generally vary in size from 1 kVA to 1,000 kVA, with an occasional larger unit. Most of these units will be pole type transformers, with some 1Ø pad-mounted units and a few 3Ø pad-mounted units.
- 3) LOCATIONS - Scrap transformers will be collected by SWEPCO at the following locations:
 - a) 6130 Union Street
Shreveport, LA 71108
 - b) 1221 Karnes Road
Longview, TX 75604
 - c) 3708 West 7th Street
Texarkana, TX 75501
 - d) 101 W. Township St.
Fayetteville, AR 72703
- 4) CONDITION OF UNITS - All scrap transformers will be drained of oil by SWEPCO prior to shipment to dealers' facilities. Some units may contain residual oil only. Only units tested at less than 50 ppm PCB content will be scrapped.
- 5) DISPOSAL - All transformers shipped to the scrap facility are to be dismantled and processed as scrap material only. No transformers are to be reused or resold intact to another party.
- 6) PRICES - Bids are requested based on the following closing prices as published in American Metal Market:

Refiners Copper Scrap - Light Copper
Brass Ingot Makers Scrap - Yellow Brass Solids
Secondary Smelters' Scrap Aluminum - Mixed Clips
Scrap Iron & Steel - No. 2 heavy melt - St. Louis

1 Kva

000143

The figures used shall be those published the Monday following the date transformers are picked up.

Optional pricing methods will be considered; however, bids based on these closing prices are also requested to aid with fair evaluations.

- 7) OPTIONAL TRAILERS - As an option, empty flatbed trailers are requested for each location so that units to be scrapped can be loaded on an as needed basis. The dealer will be notified when the trailer is filled. An empty trailer is to be delivered when the filled trailer is picked up. It shall be the responsibility of the dealers driver to secure all units prior to leaving SWEPCO's property.
- 8) PAYMENTS - Payments for all scrap transformers are to be made within thirty (30) days after units are picked up. All payments should be made by check payable to SWEPCO, mailed to Purchasing Department, P.O. Box 21106, Shreveport, LA 71156. The total number of units picked up and the location of the units must be included with the payment.
- 9) CONTRACT - This work will be covered by the enclosed general contract (M-89). Please refer to it for general terms and conditions, insurance requirements, etc.

Bids must be received in SWEPCO's Purchasing Department on or before 2:00 p.m., ~~March 7, 1989~~^{May 17, 1991}, if they are to receive consideration. Please seal you bid in the enclosed envelope and return it to me at the above address.

Bids will be opened privately at 2:00 p.m., ~~March 7, 1989~~^{May 17, 1991}. We reserve the right to reject any and all proposals. If you have any questions, please call me at (318) 222-2141, extension 332 or ~~Ward Martaindale~~, extension ~~416~~⁴¹⁷.
MALCOLM SMOAK

Sincerely,

Robert D. Mabry

Dear Mr. Doyle:

As we discussed by telephone yesterday, each of the divisions are pleased with the service provided by your company in salvaging junk, Non-PCB transformers, and we are interested in exercising our option to extend the contract between SWEPCO and your company one year to May 30, 1991.

We look forward to continuing our good work relationship during the next year. If you have any questions, please let me know.

PICKEDUP 8-1-94

To Whom it may concern:

This lot of transformers, 76 units, 2412.5 KVA has been sold to F. J. Dovie Scrap Metal located in Leonard, Texas. There is no oil in these transformers and they are classified as non pcb. These transformers were purchased under Contract #2715.

SOUTHWESTERN ELECTRIC POWER COMPANY
A Member of the Central and South West System

FOR COMPANY BUSINESS ONLY

SUBJECT: F.J. Doyle Junk Transformer Salvage Audit DATE: July 8, 1993

FROM: John Flood 252 Environmental Arsenal Hill

TO: Frank Bryan EXT. DEPT. LOCATION/ROOM

Construction 412M

DEPT. LOCATION/ROOM

At your request, Brian Whatley and I conducted an audit of F.J. Doyle Junk Transformer Salvage in Leonard, Texas on June 24, 1993. Mr. Doyle accompanied us on the facility inspection and afterwards answered our questions satisfactorily.

Our impressions of his business are:

1. The site is small but fairly well maintained considering the nature of his business. He had recently constructed a concrete containment structure around his aboveground waste transformer oil tanks and indicated that he planned to build a roof over the area. His tanks do not meet the minimum volume requirements for an SPCC plan. We were able to identify many transformers on his yard that came from SWEPCO. His primary business is metal recovery from the transformers; however, some transformers are taken to rewinders then sold for reuse.
2. Several wastes are generated in the transformer dismantling and metal recovery processes. One is ash from a burn-out oven and the other is waste transformer oil. These wastes are regulated under the Texas Water Commission (TWC) Industrial Solid Waste Regulations. Mr. Doyle does not have the proper registrations nor waste management controls in place to properly manage these wastes.
3. Mr. Doyle does not have an adequate recordkeeping system. He told us that he receives documentation with each load of transformers stating that the PCB concentration of each unit is < 50 ppm PCBs. However, he only keeps these records until the transformers are paid for. Two or three years ago he was inspected by EPA or TWC (he was not sure which one). When the inspectors arrived at his site, one of them suited up and they began collecting soil samples around his transformer storage yard and home. Sometime later he was notified that the samples were clean. He did not have the names of the inspectors, which agency they were from, photos, or a report of the inspection.

In order for us to recommend that SWEPCO continue doing business with F.J. Doyle, we feel that Mr. Doyle should:

1. Obtain a Texas Water Commission generator ID number for generating solid waste in Texas.

000013

-Page 2-

2. Obtain a TWC transporter ID number for transporting solid waste in Texas.
3. Characterize his wastes through lab testing and obtain TWC waste codes to use when disposing of these wastes.
4. Institute a recordkeeping system.
5. Analyze oil sample(s) from storage tanks for PCB content prior to shipment to Scoggins Oil Co.

The five items above would apply to any transformer salvage business in Texas.

John Flood

SMALL BUSINESS RESOURCES INFORMATION SHEET
F. J. DOYLE SUPERFUND SITE

U.S. EPA Small Business Resources Information Sheet

The United States Environmental Protection Agency provides an array of resources to help small businesses understand and comply with federal and state environmental laws. In addition to helping small businesses understand their environmental obligations and improve compliance, these resources will also help such businesses find cost-effective ways to comply through pollution prevention techniques and innovative technologies.

Office of Small and Disadvantaged Business Utilization (OSDBU)

<https://www.epa.gov/aboutepa/about-office-small-and-disadvantaged-business-utilization-osdbu>

EPA's OSDBU advocates and advances business, regulatory, and environmental compliance concerns of small and socio-economically disadvantaged businesses.

EPA's Asbestos Small Business Ombudsman (ASBO)

<https://www.epa.gov/resources-small-businesses/asbestos-small-business-ombudsman> or 1-800-368-5888

The EPA ASBO serves as a conduit for small businesses to access EPA and facilitates communications between the small business community and the Agency.

Small Business Environmental Assistance Program

<https://nationalsbeap.org>

This program provides a "one-stop shop" for small businesses and assistance providers seeking information on a wide range of environmental topics and state-specific environmental compliance assistance resources.

EPA's Compliance Assistance Homepage

<https://www.epa.gov/compliance>

This page is a gateway to industry and statute-specific environmental resources, from extensive web-based information to hotlines and compliance assistance specialists.

Compliance Assistance Centers

<https://www.complianceassistance.net>

EPA-sponsored Compliance Assistance Centers provide the information you need, in a way that helps make sense of environmental regulations. Each Center addresses real world issues faced by a specific industry or government sector. They were developed in partnership with industry, universities and other federal and state agencies.

Agriculture

EPA Hotlines and Clearinghouses

www.epa.gov/home/epa-hotlines

EPA sponsors many free hotlines and clearinghouses that provide convenient assistance regarding environmental requirements. Examples include:

Clean Air Technology Center (CATC) Info-line

www.epa.gov/cata or 1-919-541-0800

Superfund, TRI, EPCRA, RMP, and Oil Information Center

1-800-424-9346

EPA Imported Vehicles and Engines Public Helpline

www.epa.gov/otaq/imports or 1-734-214-4100

National Pesticide Information Center

www.npic.orst.edu or 1-800-858-7378

National Response Center Hotline to report oil and hazardous substance spills -

<http://nrc.uscg.mil> or 1-800-424-8802

Pollution Prevention Information Clearinghouse (PPIC) -

www.epa.gov/p2/pollution-prevention-resources/ppic or 1-202-566-0799

Safe Drinking Water Hotline -

www.epa.gov/ground-water-and-drinking-water/safe-drinking-water-hotline or 1-800-426-4791

Toxic Substances Control Act (TSCA) Hotline

tsc hotline@epa.gov or 1-202-554-1404

U.S. Small Business Resources

Small Entity Compliance Guides

<https://www.epa.gov/reg-flex/small-entity-compliance-guides>

EPA publishes a Small Entity Compliance Guide (SECG) for every rule for which the Agency has prepared a final regulatory flexibility analysis, in accordance with Section 604 of the Regulatory Flexibility Act (RFA).

Regional Small Business Liaisons

www.epa.gov/resources-small-businesses/epa-regional-office-small-business-liaisons

The U.S. Environmental Protection Agency (EPA) Regional Small Business Liaison (RSBL) is the primary regional contact and often the expert on small business assistance, advocacy, and outreach. The RSBL is the regional voice for the EPA Asbestos and Small Business Ombudsman (ASBO).

State Resource Locators

www.enveap.org/statetools

The Locators provide state-specific information on regulations and resources covering the major environmental laws.

State Small Business Environmental Assistance Programs (SBEAPs)

<http://www.nationalsbeap.org/states/list>

State SBEAPs help small businesses and assistance providers understand environmental requirements and sustainable business practices through workshops, trainings and site visits.

EPA's Tribal Portal

<https://www.epa.gov/tribal>

The Portal helps users locate tribal-related information within EPA and other federal agencies.

EPA Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has several such policies that may apply to small businesses. More information is available at:

- **EPA's Small Business Compliance Policy**
<https://www.epa.gov/compliance/small-business-compliance>
- **EPA's Audit Policy**
www.epa.gov/compliance/epas-audit-policy

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a Small Business Administration (SBA) National Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the SBA's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, you can call the SBA National Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247), or submit a comment online at <https://www.sba.gov/about-sba/oversight-advocacy/office-national-ombudsman>.

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.

Re: Notice of Potential Liability and Demand for Payment
F. J. Doyle Salvage Superfund Site
Leonard, Fannin County, Texas, SSID # 061D

Dear Sir/Madam:

Under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA, commonly known as the federal "Superfund" law), the United States Environmental Protection Agency (EPA) has the authority to respond to a release or threat of a release of hazardous substances, pollutants or contaminants into the environment – that is, for stopping further contamination from occurring and for cleaning up or otherwise addressing any contamination that has already occurred. EPA has documented that such a release has occurred at the F. J. Doyle Superfund Site in Leonard, Fannin County, Texas (Site). EPA has spent, or is considering spending, public funds to investigate and control releases of hazardous substances or potential releases of hazardous substances at the Site. Based on information presently available, EPA has determined that SWEPCO may be a potentially responsible party (PRP) under CERCLA for cleanup of the Site or for costs EPA has incurred in responding to the contamination on the Site.

Explanation of Potential Liability

Under Section 107(a) of CERCLA, 42 U.S.C. § 9607(a), PRPs may be held liable for all costs incurred by the EPA (including interest) in responding to any release or threatened release of hazardous substances at the Site. PRPs include current and former owners and operators of the Site, as well as persons who arranged for treatment and/or disposal of any hazardous substances found at the Site, and persons who accepted hazardous substances for transport and selected the site to which the hazardous substances were delivered.

Based on the information collected, the EPA has determined that SWEPCO may be liable under Section 107(a) of CERCLA with respect to the Site as a generator who arranged for the disposal, treatment or transportation of hazardous substances at the Site. Specifically, the EPA has reason to believe that SWEPCO arranged for the disposal, treatment, or transportation of electrical transformers containing polychlorinated biphenyls (PCBs) to the Site. Enclosure 1 is a copy of the evidence on SWEPCO's involvement with the Site.

Background

To date, the EPA has taken response actions at the Site under the authority of the Superfund Program. Below is a brief description of the actions taken at the Site:

- In May 2015, the Texas Commission on Environmental Quality referred the Site to the EPA.
- In May 2018, the EPA investigated the surface and sub-surface soils to determine the lateral and vertical extent of contamination at the Site and surrounding areas.
- The EPA conducted a removal action at the Site beginning on November 5, 2018, removing and disposing of PCB-contaminated soils and building elements.

Demand for Payment

In accordance with Section 104 of CERCLA, 42 U.S.C. § 9604, the EPA has already taken certain response actions, which are listed above, and incurred certain costs in response to conditions at the Site. The EPA is seeking to recover from PRPs the response costs and all the interest expended at the Site and authorized to be recovered under Section 107(a) of CERCLA. The total response costs identified through August 31, 2020, for the Site are \$3,833,694.38. Under Section 107(a) of CERCLA, EPA hereby makes a demand for payment from you and other PRPs for the above amount plus all interest authorized to be recovered under Section 107(a) of CERCLA. A summary of these costs reported through August 31, 2020, is enclosed as Enclosure 2.

The EPA would like to encourage communication between you, other PRPs and the EPA regarding the Site and this demand for payment. To assist you in your efforts to communicate, please find in Enclosure 3 a list of names and addresses of PRPs to whom this letter is being sent.

Ability to Pay Settlement

While this letter demands that SWEPCO reimburse the EPA for all funds spent at the Site, the EPA is aware that the financial ability of some PRPs to contribute toward the payment of response costs at a site may be substantially limited. If you believe, and can document, that you fall within this category, please contact Mr. David Eppler by phone at 214-665-6529 or via email at eppler.david@epa.gov for information on ability to pay settlements. In response, you will receive a package of information about such settlements and a form to fill out with information about your finances, and you will be asked to

submit financial records including federal tax returns. If the EPA concludes that SWEPCO has a legitimate inability to pay the full amount demanded, the EPA may offer a schedule for payment over time or a reduction in the total amount demanded from you.

Some or all of the costs associated with this notice may be covered by current or past insurance policies issued to SWEPCO. Most insurance policies will require that you timely notify your carrier(s) of a claim against you. To evaluate whether you should notify your insurance carrier(s) of this demand, you may wish to review current and past policies, beginning with the date of SWEPCO's first contact with the F. J. Doyle Site. Coverage depends on many factors, such as the language of the particular policy and state law.

Also, please note that, because the EPA has a potential claim against you, you must include the EPA as a creditor if you file for bankruptcy. The EPA reserves the right to file a proof of claim or an application for reimbursement of administrative expenses.

Resources and Information for Small Businesses

In January of 2002, President Bush signed into law the Superfund Small Business Liability Relief and Brownfields Revitalization Act. This Act contains several exemptions and defenses to CERCLA liability, which we suggest that all parties evaluate. You may obtain a copy of the law at <http://www.gpo.gov/fdsys/pkg/PLAW-107publ118/pdf/PLAW-107publ118.pdf> and review the EPA guidance regarding these exemptions at <http://cfpub.epa.gov/compliance/resources/policies/cleanup/superfund/>

The EPA has also created a number of helpful resources for small businesses. The EPA has established the National Compliance Assistance Clearinghouse as well as Compliance Assistance Centers which offer various forms of resources to small businesses. You may inquire about these resources at <http://www.epa.gov/compliance/compliance-assistance-centers>. In addition, the EPA Small Business Ombudsman may be contacted at <http://www.epa.gov/resources-small-businesses/forms/contact-us-about-resources-small-businesses>. Finally, the EPA has developed a fact sheet about the Small Business Regulatory Enforcement Fairness Act ("SBREFA") and information on resources for small businesses, which is included with Enclosure 4 with this letter and available on the Agency's website at <http://www.epa.gov/compliance/small-business-resources-information-sheet>.

Your Response

Please send a written response to this cost recovery demand, within thirty (30) days of receipt of this letter, to:

Mr. David Eppler (SEDAE)
Enforcement Officer
Superfund and Emergency Management Division, Cost Recovery Section
U.S. EPA, Region 6
1201 Elm St, Suite 500
Dallas, Texas 75270
Telephone: (214) 665-6529
Email: eppler.david@epa.gov

If a response from you is not received within thirty (30) days, the EPA will assume that you have declined to reimburse the Superfund for the Site response costs, and the EPA will evaluate its enforcement options pursuant to CERCLA accordingly.

If you have questions regarding the response actions taken at the Site, please contact Mr. David Eppler at 214-665-6529. If you or your attorney have legal questions, please direct them to Mr. Leonard Schilling, Superfund Attorney, at 214-665-7166 or schilling.leonard@epa.gov.

Thank you for your prompt attention to this matter.

Sincerely yours,

Wren Stenger
Director
Superfund and Emergency Management Division

ENCLOSURE 1

EVIDENCE OF LIABILITY
F. J. DOYLE SALVAGE SUPERFUND SITE

CHRONOLOGY OF FRANK J. DOYLE & SONS TRANSFORMERS

- A PCB Inspection was conducted on 8/30/83. At the time of the inspection, the facility had 150 transformers, 100 empty casings transformer parts and 1-500 gallon and 1-900 gallon storage tanks. No PCB records of transactions were kept. Five samples were collected (2 from oil tanks and 3 soil samples from various areas of the site). One oil sample, from a 500 gallon tank, contained 82 ppm PCB and one soil sample from the SW. corner of the lot, contained 61 ppm PCB. Based on pictures taken during the time of the inspection, visible oil stains were seen at the site. In addition, no fence was around the facility. The facility had been in operation since about 1979.
- On January 25, 1984 a Civil Complaint was issued to the facility for failure to mark the 500 gallon tank, failure to prepare and implement an SPCC plan and failure to keep batch records for the 500 gallon tank. The total proposed penalty was \$3,000. This matter was settled with a CA/CO on May 3, 1985, where the Respondent paid a final penalty of \$50.00, based on inability to pay.
- On September 28, 1990 the EPA Emergency Response Branch (ERB) Technical Assistance Team (TAT) performed a site assessment at the facility in response to a citizens complaint concerning the improper handling and salvage of transformers. This complaint originally came into the EPA TSCA program and it was referred to ERB. The purpose of the 9/28/90 site visit was to perform PCB screening of oil and soil using CHLOR-N-OIL (TM) AND CHLOR-N-SOIL (TM) test kits. TAT observed 1-500 gallon tank, 1-900 gallon tank and 14-55 gallon drums that were being used for storage of transformer oil. Both tanks and all the 55 gallon drums were filled to capacity with transformer oil. Stored onsite were approximately 200-300 transformers to be salvaged. Two oil samples and three soil samples were collected and screened. One soil sample of a stained area at the northeast corner of the site and two oil samples from the 900 gallon storage tank and a 55 gallon drum all tested positive for PCBs above 50 ppm.
- On October 12, 1990 a PCB inspection, in addition to further sampling by the TAT, were conducted at the site. Of the 14-55 gallon drums that were present at the site on 9/28/90, only one drum contained oil. Both of the 900 and the 500 gallon tanks had been drained of oil and were in the process of being refilled. Again the TAT screened oil samples from transformers and the tanks. Fourteen samples were screened and five samples of the fourteen were sent for analysis. Two sweep samples were taken from the transformer dismantling building at unbiased locations. Two wipe

9457024

samples were collected from the kiln located in the dismantling building for PCB and dioxin analysis. Offsite grab surface samples were collected at the Doyle residence, [Ex. 6 Personal Privacy (PP)] residence, drainage pathways adjacent to the site and drainage pathways in the school yard. A background grab surface soil sample was collected from the school practice field. All samples were collected for PCB analysis and two samples [Ex. 6 Personal Privacy (PP)] residence and school yard) were collected for dioxin analysis. Offsite wipe samples were collected at the Doyle residence, [Ex. 6 Personal Privacy (PP)] residence, and at the school building for dioxin analysis.

All samples analyzed for dioxin were non detect. Three sample sites contained PCBs greater than 50 ppm. Those were the Salvage Yard- North grid (89 ppm), Salvage Yard- South Grid (71 ppm) and the drainage pathway south of the site (280 ppm).

It was determined during this inspection that Mr. Doyle bought used transformers from only four sources, which were Southwestern Electric Power Co. (SWEPCO), City of Garland, Texas, Louisiana Power & Light and Public Service of Oklahoma. He had a heat cleaning oven for drying and removing transformer core residue to simplify removal of copper. The oven had a Texas Air Control Board permit. All of the scrap metal was sold to McKinney Metals. All transformer oil was sold to Scoggins Oil Co., Sallisaw, Okla.

- On 7/26/90 a PCB Inspection was conducted at McKinney Metals, McKinney, Texas. Based on the inspection findings, it was determined that Frank Doyle is the primary supplier of transformer cans and burned windings. Frank Doyle did not supply certifications or test results with this equipment. A sample was taken at the prepared ferrous and shearing area, where earlier that day several empty transformer cans had arrived from Frank Doyle. This sample contained 86.3 ppm PCB.

- On April 19, 1991 the TAT went back to the site to collect further samples from the drainage ditch. Four composite and one grab sample was taken for PCB analysis. Three of the samples contained PCBs in excess of 50 ppm (58 ppm, 271 ppm and 166 ppm). The ERB referred this case back to TSCA in July, 1991.

- On September 7, 1994 a PCB Inspection was conducted at the facility. At the time of the inspection, the facility had 11 drums of brass material, 91 drums of scrap metal, 751 empty transformers and 3 oil storage tanks (2-500 gallon and 1-275 gallon) at the facility. The transformers are now mainly purchased from Louisiana Power & Light and SWEPCO. The oil is still sold to John Scoggins and the scrap metal is sold to McKinney Metals. Four samples were taken during the inspection for PCB analysis. One soil sample taken from outside the fence in a drainage pathway between the fence and the road across the street from the school contained 11.8 ppm PCB.

- On January 25, 1995 a letter was sent to Mr. Doyle informing him of the PCB contamination at his site and soliciting his intentions in regards to characterization and, if appropriate, cleanup.
- On February 15, 1995 Worldwide Reclamation, contractor for Mr. Doyle, obtains surface samples of the site. This contractor does not consult with EPA before obtaining samples. All sample results were non-detect.
- On March 9, 1995 EPA conducts a site visit to meet with Mr. Doyle and Worldwide Reclamation to discuss further sampling of the site.
- On May 23-24, 1995 Worldwide Reclamation conducts sampling at the site. The number of samples taken during this time was restricted based on Mr. Doyle's financial status.
- On June 21, 1995 a meeting is held at the Frank Doyle site to discuss the sampling results and to discuss the need for a timely remediation response. Mr. Doyle was given until 6/27/95 to decide whether he was going to take responsibility for the cleanup.
- On June 27, 1995, based on a phone conversation with Mr. Doyle, he stated that he could not take responsibility for remediation efforts based on inability-to-pay.

This Agreement made and entered into by and between SOUTHWESTERN ELECTRIC POWER COMPANY, a Delaware Corporation, party of the first part, hereinafter called "COMPANY," and Frank J. Doyle Corporation (Name of organization), a scrap metal recycler (Type of Organization), authorized to do business in Texas (State), domiciled at 305 Cottonwood (Street), Leonard, Texas 75452 (City, State, and Zip Code), party of the second part, operating as a Contractor, hereinafter called the "CONTRACTOR."

WITNESSETH THAT: for and in consideration of the premises and the mutual agreement and undertakings of the parties hereto, the CONTRACTOR agrees to the following terms and conditions:

(1) The CONTRACTOR agrees to furnish all labor, tools, and equipment, and to pay all expenses necessary for performing miscellaneous work to include purchasing of scrap transformers to be loaded on trailers furnished by F. J. Doyle

or similar jobs as authorized by the Manager of Electric Systems, G. O. Section Manager, or their designated representative.

(2) The CONTRACTOR shall secure all permits and licenses imposed by law, pay all charges and fees, and give all notices necessary and incident to the due and lawful prosecution of his work. The CONTRACTOR shall also contract other contractors and utilities working in the area where the work is being done and attempt to coordinate his work with theirs.

(3) The CONTRACTOR shall not obligate the COMPANY to make any payments to another party, nor make any promises or representations of any nature to another party for, or in behalf of, the COMPANY without the written approval of the COMPANY.

(4) The CONTRACTOR agrees to provide and install all barricades, warning signs, flashers, etc., that may be required to protect and/or warn the public of open ditches or any other hazard created by the performance of his work.

(5) To the maximum extent permitted by law and in consideration of the benefits received under this contract, CONTRACTOR agrees that, as between itself and COMPANY, on behalf of itself and its insurers, it will defend, indemnify and hold COMPANY and COMPANY'S insurers, affiliates, directors, officers, employees, and agents (collectively "COMPANY") harmless from and against any and all claims, loss, liability, costs, damage, expenses (including but not limited to, reasonable attorney's fees and court costs) and obligations arising out of (a) any breach by CONTRACTOR of any of its representations, warranties, covenants or other agreements under this contract or (b) any personal injury or death of persons (including but not limited to injuries or death of employees, or agents of COMPANY, CONTRACTOR, or any SUBCONTRACTOR) or damage to or destruction of any property resulting from any occurrence, including but not limited to environmental damage in any way related to or arising out of the performance of the contract. In this respect, CONTRACTOR agrees to indemnify and hold COMPANY harmless from any acts or omissions, alleged or found to constitute negligence or other fault, caused directly or indirectly or solely by the COMPANY, its directors, officers, employees, or agents or jointly by the COMPANY, its directors, officers, employees, or agents and the CONTRACTOR, its agents, representatives, employees or SUBCONTRACTORS; or solely by the CONTRACTOR, its agents, representatives, employees or

000003

SUBCONTRACTORS. The CONTRACTOR agrees that it is the specific intent of CONTRACTOR to indemnify the COMPANY from the negligent acts or omissions of the COMPANY representatives, agents, employees, officers or directors, and whether caused directly or indirectly by the negligence of the COMPANY, its officers, agents, directors, representatives and/or employees; providing nothing herein shall create an obligation of CONTRACTOR to indemnify and hold harmless COMPANY from any claim, loss, liability, costs, damage or expense resulting from the willful and wanton negligence of COMPANY.

(6) In the event and to the extent that a claim is made by an employee of CONTRACTOR or any SUBCONTRACTOR against COMPANY or against any of COMPANY'S corporate affiliates, directors, officers, employees, agents or independent contractors, the intent of the preceding paragraph is that CONTRACTOR shall and hereby agrees to indemnify COMPANY, its corporate affiliates, directors, officers, employees, and agents to the same extent as if the claim was made by a nonemployee of CONTRACTOR or SUBCONTRACTOR. Accordingly, in addition to other provisions herein and in order to render the parties' intent of this indemnification covenant fully enforceable, CONTRACTOR, to the limited extent of an indemnification claim hereunder, expressly and without reservation waives any defense or immunity it may have under any applicable workers' compensation laws or any other statute of judicial decision disallowing or limiting such indemnification and consents to a cause of action for indemnity.

(7) In the event that CONTRACTOR or CONTRACTOR'S insurance company fails to undertake the defense of any suit or claim arising out of this contract and for which CONTRACTOR owes the duty of indemnification, or undertakes any such defense on a delayed, conditional, restricted or qualified basis, and the COMPANY, in its sole discretion, thus finds it necessary to employ attorneys, investigators, expert witnesses and do such other things as are reasonably necessary to investigate and/or defend the claim or suit, then, in such event, CONTRACTOR obligates itself to pay any and all such costs and expenses, including court costs as may have been reasonably incurred by the COMPANY.

(8) The CONTRACTOR further agrees to save the COMPANY harmless from the payment of any contribution under the State Unemployment Compensation Act, and CONTRACTOR agrees that if it is subject to the State Unemployment Compensation Act, it will make whatever contributions are required under and by virtue of the provision of said Act to the proper authorities. CONTRACTOR shall furnish the COMPANY with proof that the Social Security has been paid and that all of its employees have been paid.

(9) The CONTRACTOR shall furnish evidence that the following insurance requirements have been complied with:

KIND	LIMITS OF LIABILITY
(A) Public Liability	\$500,000
(B) Motor Vehicle Liability	\$500,000

(10) Should CONTRACTOR fail to prosecute the work to the satisfaction of the COMPANY or to comply with any of the provisions of this agreement, the COMPANY may terminate this agreement upon twenty-four (24) hours' written notice to the CONTRACTOR.

(11) Payment by the COMPANY to the CONTRACTOR for work herein provided to be done shall be upon the following basis:
See Exhibit "I", attached.

(12) It is understood and agreed by and between the parties hereto that the CONTRACTOR herein is an independent CONTRACTOR and not an agent or employee of the COMPANY, that the CONTRACTOR shall employ, direct, control, supervise, manage, discharge and pay his own employees; that the COMPANY shall have no control of, or supervision over, the employees of the CONTRACTOR; that the CONTRACTOR is responsible to the COMPANY only for the furnishing of the proper tools and equipment, adequate crew supervision, and doing of the work called for in the contract in a good and workmanlike manner, and in accordance with the terms of the contract and to the satisfaction of the COMPANY.

(13) Approval by the COMPANY as required by sections of the Agreement shall be interpreted to mean approval by the COMPANY'S Manager of Electric Systems, G. O. Section Manager, or his designated representative.

(14) The CONTRACTOR specifically warrants and agrees CONTRACTOR will be solely and exclusively responsible for compensating any of CONTRACTOR'S employees, subcontractors, materialmen and/or suppliers of any type or nature whatsoever and that no claims or liens of any type will be filed against any property owned by SWEPCO arising out of or incidental to the performance of any services performed pursuant to this contract. In the event a lien is filed, the CONTRACTOR agrees, upon written notice from SWEPCO, to immediately obtain a bond at its expense so as to bond the property free and clear from the said lien and hold SWEPCO harmless from any losses that may result from the filing or enforcement of said lien.

(15) The CONTRACTOR covenants, represents, and warrants:

(a) That all applicable provisions of Executive Order No. 11,246, dated September 24, 1965, the Rules and Regulations promulgated thereunder by the Office of Federal Contract Compliance of the United States Department of Labor, and all applicable requirements of the Equal Employment Opportunities Subchapter of the Civil Rights Act of 1964 and Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 and Section 503 of the Rehabilitation Act of 1973 will be fully met and observed in respect to the performance of services covered by this contract;

(b) That it has taken affirmative action to ensure that applicants for employment by it and its employees are dealt with without regard to race, color, religion, sex, or national origin.

(16) This contract shall cover :

a 24-month period from September 1, 1994 through August 31, 1996.

IN WITNESS WHEREOF: the parties hereto have caused this Agreement to be executed in duplicate by their proper officers this the 10 day of AUGUST 19 94.

Appendix B - Field Log Book

Field Log Book for SSI
Frank J. Doyle Transform Site

TXD
Soring Site Inspector

12:30 pm - Day 01 - Arrived at City Hall and met Gary Hayslip, R4 Field Investigator to conduct site reconnaissance.

12:40 pm - Day 01 - Conducted safety brief for reconnaissance.

Field Team Members:

	<u>TI/TA</u>	<u>Phone No.</u>
1. R4 James D. Thompson	Field Investigator	(817) 462-6450
2. R5 Gary Hayslip	Field Investigator	(903) 535-5168
3. C6 Abbie Power	Field Investigator	(512) 239-2533
4. C6 Ray Newby	Field Investigator	(512) 239-4132

Off Site Reconnaissance - Frank J. Doyle - Newby
Only Water Wells

Workday - Day 01

01/12/98 12:00 pm - Met Charles Cooper, Public Works Director, City of Sevier, at City Hall. Went to Pump Station No. 1 located at the intersection of
Ex. 9 - Wells Well involved in a pump house. Hose from well head can be used to collect sample. Requested hose be connected to purge the well for 15 minutes tomorrow. No problems sampling well anticipated.

1:15 - Went to Pump Station No. 2 well located along
Ex. 9 - Wells City Hall. Again well in a pump house. Plastic 3/4" pipe from well head can be used for sample collection point. Both wells can be sampled prior to chlorination.

James Doyle 1/12/98

1/12/98 - Day 01 (continued)

On-Site Reconnaissance

13:30 - Arrived at the F.J. Doyle Transformer Site and contacted Frank Doyle and his son Gary Doyle. Introduced team members and stated purpose of the inspection. Conducted interview with Mr. Frank and Gary Doyle:

- facility was used as a horse barn prior to Mr. Frank Doyle beginning salvage operations late 1975 to early 1976.
- Former transformer suppliers were Public Service of Oklahoma, Texas Power & Light.
- only supplier now is SWELCO.
- all transformers are received already drained and only residuals are collected. all transformers are tested prior to receipt from the suppliers.
- sizes range from 1/2 KVA to 500 KVA
average size is 25-50 KVA
- approximately 100 transformers were noted on-site stored outside and around perimeter fence. Also located.

Operational Procedures:

1. Transformer received in N. off-load area and stored along fence prior to processing.
2. Transformer lifted by fork lift to inside shop.
3. Oil drained by hand operated pump to collection drums.
4. Copper / aluminum core removed and placed on derrick tray to dry dry. Collected oil poured to collection drum (satellite storage container), usually 55-gal drum.
5. Metal base/casing removed and copper core placed in oven and baked. Smoke goes from wood stove.
6. Baked core collected in bin for recycling.

SUBJECT: SCRAP TRANSFORMERS DATE: MAY 6, 1991
COMPANY WIDE
FROM: A. M. SMOAK 417 G. O. ENGR. RM. 424
EXT. DEPT. LOCATION/ROOM
TO: MIKE JONES PURCHASING RM. 1015M
DEPT. LOCATION/ROOM

Please prepare a bid request for scrap transformers generated by SWEPCO. The present contract with F. J. Doyle scrap metal expires May 31, 1991.

I am including a revised copy of the bid letter from 1989, a suggested bidders list and a blank contract (M 91) to be included with each bid request. I recommend that the contract be for one year with an option to extend for an additional year. Once the successful bidder is selected, an environmental audit of that facility might be required to ensure that materials are handled in an environmentally sound manner. Note that Yaffee Iron & Metal Company, Inc. was not included on the bidders list because of problems found during an environmental assessment visit in 1989 by Bruce Wright.

costs in any way caused by or arising out of the performance of this contract including, but not limited to, claims for death, personal injury or property damage. CONTRACTOR further agrees to hold the COMPANY harmless in the premises not only for all claims, suits, judgments or costs in any way caused by or arising out of the performance of this contract by the CONTRACTOR, or by third persons, but also will hold the COMPANY harmless from any acts or omissions caused directly or indirectly by the COMPANY, its agents or employees, willful and wanton negligence excepted.

(6) The CONTRACTOR expressly agrees that he shall indemnify, defend at his expense and completely hold harmless the COMPANY, its successors and/or assigns, from any and all claims of any type or nature whatsoever for damage to property resulting from any actions or inactions on the part of the CONTRACTOR, including but not limited to any claims for damages to crops, fences, land, waterways, livestock, woodland, buildings or improvements and specifically including any and all environmental claims. For purposes of this indemnification agreement, environmental claims include any and all claims asserted by any person or entity pursuant to any present or future federal, state or municipal laws, statutes, ordinances or regulations in any manner governing or affecting the environment or hazardous substances or wastes. The CONTRACTOR shall immediately assume the defense of such claims upon receipt of notice from the COMPANY.

(7) The CONTRACTOR further agrees to save the COMPANY harmless from the payment of any contribution under the State Unemployment Compensation Act, and CONTRACTOR agrees that if it is subject to the State Unemployment Act, it will make whatever contributions are required under and by virtue of the provision of said Act to the proper authorities. CONTRACTOR shall furnish the COMPANY with proof that the Social Security has been paid and that all of its employees have been paid.

(8) The CONTRACTOR shall furnish evidence that the following insurance requirements have been complied with:

<u>KIND</u>	<u>LIMITS OF LIABILITY</u>
(A) Public Liability	\$500,000
(B) Motor Vehicle Liability	\$500,000

In the event that CONTRACTOR's insurance company undertakes the defense of any suit or claim arising out of this contract on any conditional, restricted or qualified basis, and the COMPANY, in order to properly protect its interests, thus finds it necessary to employ attorneys, investigators, expert witnesses, and do such other things as are reasonably necessary to investigate and/or defend the claim or suit, then, in such event, CONTRACTOR obligates itself to pay all of such cost and expense, including court costs, as may have been reasonably incurred by COMPANY.

(9) Should CONTRACTOR fail to prosecute the work to the satisfaction of the COMPANY or to comply with any of the provisions of this agreement, the COMPANY may terminate this agreement upon twenty-four hours' written notice to the CONTRACTOR.

(10) Payment by the COMPANY to the CONTRACTOR for work herein provided to be done shall be upon the following basis:

(11) It is understood and agreed by and between the parties hereto that the CONTRACTOR herein is an independent CONTRACTOR and not an agent or employee of the COMPANY, that the CONTRACTOR shall employ, direct, control, supervise, manage, discharge and pay his own employees; that the COMPANY shall have no control of, or supervision over, the employees of the CONTRACTOR; that the CONTRACTOR is responsible to the COMPANY only for the furnishing of the proper tools and equipment, adequate crew supervision, and doing of the work called for in the contract in a good and workmanlike manner, and in accordance with the terms of the contract and to the satisfaction of the COMPANY.

(12) Approval by the COMPANY as required by sections of the Agreement shall be interpreted to mean approval by the COMPANY'S Division Superintendent, or his designated representative.

(13) The CONTRACTOR covenants, represents, and warrants:

(a) That all applicable provisions of Executive Order No. 11,246, dated September 24, 1965, the Rules and Regulations promulgated thereunder by the Office of Federal Contract Compliance of the United States Department of Labor, and all applicable requirements of the Equal Employment Opportunities Subchapter of the Civil Rights Act of 1964 and Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 and Section 503 of the Rehabilitation of 1973 will be fully met and observed in respect to the performance of services covered by this contract;

(B) That it has taken affirmative action to insure that applicants for employment by it and its employees are dealt with without regard to race, color, religion, sex, or national origin.

(13) This contract shall cover request for

DATE: August 26, 1983

SUBJECT: PCB Inspection Request - Transformer Salvage Operation, Leonard, Texas

FROM: Norman Dyer, Chief *Norman Dyer*
Pesticides & Toxic Substances Branch, 6AW-P

TO: James Stiebing, Chief
Surveillance Branch, 6ES-S

We request an inspection as soon as practical of a transform salvaging operation on a vacant lot adjacent to the high school in Leonard, Texas. Leonard is in Fannin County and the school is near the intersection of Hwys 78 & 69.

According to our informant, there are at least 100 transformers on this lot, and the oil from the transformers is being dumped on the ground. The person responsible for this activity is unknown at this time.

In addition to documenting the presence of PCBs by examining manufacturer's plates and sampling, the inspector should determine when the salvaging operation began at this location. The source of the transformers should be determined, and we would like to know if any analytical data is available on them.

SECTION B. INSPECTION/REVIEW/COMMENTS

INSPECTED BY: R. P. McLaughlin 6ES-SH 30 August 1983
(Signature) (Agency & Date)

REVIEWED BY: Dave Peters 6ES-SH
(Signature) (Agency & Date)

COMMENTS: This inspection was conducted as the result of a request from the Regional Program Office acting on an informant complaint. (Copy attached). The lot in question is a corner lot of Cottonwood St and Poplar St. Approximately 90' deep and 180' wide.

Frank Doyle began a salvage/junk operation about five years ago. He buys old/used transformers through bids from various sources. Three sources according to Mr Doyle were: Southwestern Electric Power Company, Longview, TX; City of Garland, TX; and Floydada Lighthouse, TX. He stated he buys them through the bid process and he is supposed to be assured they are non-PCB. Most of the time, he stated, the transformers are drained of oil. He drains those with oil into two tanks on the property, 1-500 gal and/or 1-900 gal tank. About once each year the oil is sold to John Scoggins, Oklahoma.

N/A (Not Applicable)

(over)

C/A (Comments Attached)

(9/82)

No analysis of the oil takes place since he is supposedly assured that the oil contains non-PCBs. He said that bids are mailed to addressees who deal with transformer salvage and get their name on the mailing lists. He said he did not keep paperwork on these transactions but that I could probably get sales slips, etc., from the selling source.

On the lot as the photos will show there were about 150 transformers, 100 empty casings, and transformers parts (coils, etc), plus the two oil storage tanks. Oil samples were collected from each tank and soil samples were collected from three ground stains. Samples were shipped to the Houston Lab for analysis.

Of special note here is that Scoggins of Oklahoma is the buyer of his waste oil. He said he sells to no one else and that it amounts to about 1400 gallons per year. (Reference TSCA Docket No VI-15C)

REASON FOR INSPECTION

Under the authority of Section 11 of the Toxic Substance Control Act

☒

For the purpose of inspecting (including taking samples, photographs, statements, and other inspection activities) an establishment, facility, or other premises in which chemical substances or mixtures or articles containing same are manufactured processed or stored, or held before or after their distribution in commerce (Including records, files, papers, processes, controls, and facilities) and any conveyance being used to transport chemical substances, mixtures, or articles containing same in connection with their distribution in commerce (including records, files, papers, processes, controls, and facilities) bearing on whether the requirements of the Act applicable to the chemical substances, mixtures, or articles within or associated with such premises or conveyance have been compiled with.

☐

In addition, this inspection extends to (circle appropriate letters):

| (A) Financial data | (D) Personnel data |
| (B) Sales data | (E) Research data |
| (C) Pricing data | |

The nature and extent of inspection of such data specified in A through E above as follows:

TSCA Inspection
Confidentiality Notice

It is possible that EPA will receive public requests for release of the information obtained during inspection of the facility above. Such requests will be handled by EPA in accordance with provisions of the Freedom of Information Act (FOIA), 6 U.S.C. 552; EPA regulations issued thereunder, 40 CFR Part 2; and the Toxic Substances Control Act, Section 14. EPA is required to make inspection data available in response to FOIA requests unless the Administrator of the Agency determines that the data contains information entitled to confidential treatment.

Any or all the information collected by EPA during the inspection may be claimed confidential if it relates to trade secrets or commercial or financial matters that you consider to be confidential. If you make claims of confidentiality, EPA will disclose the information only to the extent, and by means of the procedures, set forth in the regulations (cited above) governing EPA treatment of confidential information. Among other things, the regulations require that EPA notify you in advance of publicly disclosing any information you have claimed and certified confidential.

To Claim Confidential Information

To claim information confidential, you must certify that each claimed item meets all of the following criteria:

1. Your company has taken measures to protect the confidentiality of the information, and it intends to continue to take such measures.
2. The information is not, and has not been, reasonably obtainable without your company's consent by other persons (other than governmental bodies) by use of legitimate means (other than discovery based on a showing of special need in a judicial or quasi-judicial proceeding).

To be completed by facility official receiving these notices.

I have received and read the Notice of Inspection and Confidentiality Notice.

Frank P. Doyle

Name	Frank P. Doyle
Title	Property Owner
Signature	
Date	08-30-83

3. The information is not publicly available elsewhere.
4. Disclosure of the information would cause substantial harm to your company's competitive position.

At the completion of the inspection, you will be given a receipt for all documents, samples, and other materials collected. At that time, you may make claims that some or all of the information is confidential and meets the four criteria listed above.

If you are not authorized by your company to make confidentiality claims, this notice will be sent by certified mail, along with the receipt for documents, samples, and other materials to the Chief Executive Officer of your firm within two days of this date. The Chief Executive Officer must return a statement specifying any information which should receive confidential treatment.

The statement from the Chief Executive Officer should be addressed to:

John West, DCO (6AW-P)
EPA Region 6
1201 Elm Street
Dallas, Texas 75270

and mailed by registered, return-receipt-requested mail within seven (7) calendar days of receipt of this Notice.

Failure by your firm to submit a written request that information be treated as confidential, either at the completion of the inspection or by the Chief Executive Officer within the seven-day period, will be treated by EPA as a waiver by your company of any claims for confidentiality regarding the inspection data.

If there is no one on the premises of the facility who is authorized to make business confidentiality claims for the firm, a copy of this Notice and other inspection materials will be sent to the company's chief executive officer. If there is another company official who should also receive this information, please designate below.

I thought it interesting that you requested an audit on this facility and I was not at least notified!
Ward M.
7/24/93

FOR COMPANY BUSINESS ONLY

SUBJECT: F.J. Doyle Junk Transformer Salvage Audit

DATE: July 8, 1993

FROM:	John Flood	252	Environmental	Arsenal Hill
		EXT.	DEPT.	LOCATION/ROOM
TO:	Frank Bryan		Construction	412M
			DEPT.	LOCATION/ROOM

At your request, Brian Whatley and I conducted an audit of F.J. Doyle Junk Transformer Salvage in Leonard, Texas on June 24, 1993. Mr. Doyle accompanied us on the facility inspection and afterwards answered our questions satisfactorily.

Our impressions of his business are:

1. The site is small but fairly well maintained considering the nature of his business. He had recently constructed a concrete containment structure around his aboveground waste transformer oil tanks and indicated that he planned to build a roof over the area. His tanks do not meet the minimum volume requirements for an SPCC plan. We were able to identify many transformers on his yard that came from SWEPCO. His primary business is metal recovery from the transformers; however, some transformers are taken to rewinders then sold for reuse.
2. Several wastes are generated in the transformer dismantling and metal recovery processes. One is ash from a burn-out oven and the other is waste transformer oil. These wastes are regulated under the Texas Water Commission (TWC) Industrial Solid Waste Regulations. Mr. Doyle does not have the proper registrations nor waste management controls in place to properly manage these wastes.
3. Mr. Doyle does not have an adequate recordkeeping system. He told us that he receives documentation with each load of transformers stating that the PCB concentration of each unit is < 50 ppm PCBs. However, he only keeps these records until the transformers are paid for. Two or three years ago he was inspected by EPA or TWC (he was not sure which one). When the inspectors arrived at his site, one of them suited up and they began collecting soil samples around his transformer storage yard and home. Sometime later he was notified that the samples were clean. He did not have the names of the inspectors, which agency they were from, photos, or a report of the inspection.

In order for us to recommend that SWEPCO continue doing business with F.J. Doyle, we feel that Mr. Doyle should:

1. Obtain a Texas Water Commission generator ID number for generating solid waste in Texas.

Please prepare a bid request for scrap transformers generated by SWEPCO. The present contract with F. J. Doyle scrap metal expires May 31, 1991.

I am including a revised copy of the bid letter from 1989, a suggested bidders list and a blank contract (M 91) to be included with each bid request. I recommend that the contract be for one year with an option to extend for an additional year. Once the successful bidder is selected, an environmental audit of that facility might be required to ensure that materials are handled in an environmentally sound manner. Note that Yaffee Iron & Metal Company, Inc. was not included on the bidders list because of problems found during an environmental assessment visit in 1989 by Bruce Wright.

OFFICE OF
J. W. MARTAINDALE

Mr. F.J. Doyle
F.J. Doyle Scrap Metal
P.O. Box 312
Leonard, TX 75452

Dear Mr. Doyle:

You are invited to bid on our Scrap Transformer Program for the period March 15, 1989 through March 15, 1990, with an option year through March 15, 1991.

- 1) QUANTITY - Our volume of scrap transformers is expected to be approximately 800 to 900 units per year. These figures are estimates only.
- 2) SIZE & TYPE - Scrap transformers generally vary in size from 1 kVA to 1,000 kVA, with an occasional larger unit. Most of these units will be pole type transformers, with some 1Ø pad-mounted units and a few 3Ø pad-mounted units.
- 3) LOCATIONS - Scrap transformers will be collected by SWEPCO at the following locations:
 - a) 6130 Union Street
Shreveport, LA 71108
 - b) 1221 Karnes Road
Longview, TX 75604
 - c) 3708 West 7th Street
Texarkana, TX 75501
 - d) 101 W. Township St.
Fayetteville, AR 72703
- 4) CONDITION OF UNITS - All scrap transformers will be drained of oil by SWEPCO prior to shipment to dealers' facilities. Some units may contain residual oil only. Only units tested at less than 50 ppm PCB content will be scrapped.
- 5) DISPOSAL - All transformers shipped to the scrap facility are to be dismantled and processed as scrap material only. No transformers are to be reused or resold intact to another party.
- 6) PRICES - Bids are requested based on the following closing prices as published in American Metal Market:

Refiners Copper Scrap - Light Copper
Brass Ingot Makers Scrap - Yellow Brass Solids
Secondary Smelters' Scrap Aluminum - Mixed Clips
Scrap Iron & Steel - No. 2 heavy melt - St. Louis

000138

The figures used shall be those published the Monday following the date transformers are picked up.

Optional pricing methods will be considered; however, bids based on these closing prices are also requested to aid with fair evaluations.

- 7) OPTIONAL TRAILERS - As an option, empty flatbed trailers are requested for each location so that units to be scrapped can be loaded on an as needed basis. The dealer will be notified when the trailer is filled. An empty trailer is to be delivered when the filled trailer is picked up. It shall be the responsibility of the dealers driver to secure all units prior to leaving SWEPCO's property.
- 8) PAYMENTS - Payments for all scrap transformers are to be made within thirty (30) days after units are picked up. All payments should be made by check payable to SWEPCO, mailed to Purchasing Department, P.O. Box 21106, Shreveport, LA 71156. The total number of units picked up and the location of the units must be included with the payment.
- 9) CONTRACT - This work will be covered by the enclosed general contract (M-89). Please refer to it for general terms and conditions, insurance requirements, etc.

Bids must be received in SWEPCO's Purchasing Department on or before 2:00 p.m., March 7, 1989, if they are to receive consideration. Please seal you bid in the enclosed envelope and return it to me at the above address.

Bids will be opened privately at 2:00 p.m., March 7, 1989. We reserve the right to reject any and all proposals. If you have any questions, please call me at (318) 222-2141, extension 332 or Ward Martaindale, extension 416.

Mr. Frank J. Doyle
P. O. Box 312
Leonard, TX 75454

Dear Mr. Doyle:

As we discussed by telephone yesterday, each of the divisions are pleased with the service provided by your company in salvaging junk, Non-PCB transformers, and we are interested in exercising our option to extend the contract between SWEPCO and your company one year to May 30, 1991.

We look forward to continuing our good work relationship during the next year. If you have any questions, please let me know.

Sincerely,

J. W. MARTAINDALE

PICKEDUP 8-1-94

To Whom it may concern:

This lot of transformers, 76 units, 2412.5 KVA has been sold to F. J. Dovie Scrap Metal located in Leonard, Texas. There is no oil in these transformers and they are classified as non pcb. These transformers were purchased under Contract #2715.

A handwritten signature in dark ink, appearing to read "Hubert N. Williams", is written over the typed name.

SOUTHWESTERN ELECTRIC POWER COMPANY
A Member of the Central and South West System

FOR COMPANY BUSINESS ONLY

SUBJECT: F.J. Doyle Junk Transformer Salvage Audit DATE: July 8, 1993

FROM: John Flood 252 Environmental Arsenal Hill

TO: Frank Bryan EXT. DEPT. LOCATION/ROOM

Construction 412M

DEPT. LOCATION/ROOM

At your request, Brian Whatley and I conducted an audit of F.J. Doyle Junk Transformer Salvage in Leonard, Texas on June 24, 1993. Mr. Doyle accompanied us on the facility inspection and afterwards answered our questions satisfactorily.

Our impressions of his business are:

1. The site is small but fairly well maintained considering the nature of his business. He had recently constructed a concrete containment structure around his aboveground waste transformer oil tanks and indicated that he planned to build a roof over the area. His tanks do not meet the minimum volume requirements for an SPCC plan. We were able to identify many transformers on his yard that came from SWEPCO. His primary business is metal recovery from the transformers; however, some transformers are taken to rewinders then sold for reuse.
2. Several wastes are generated in the transformer dismantling and metal recovery processes. One is ash from a burn-out oven and the other is waste transformer oil. These wastes are regulated under the Texas Water Commission (TWC) Industrial Solid Waste Regulations. Mr. Doyle does not have the proper registrations nor waste management controls in place to properly manage these wastes.
3. Mr. Doyle does not have an adequate recordkeeping system. He told us that he receives documentation with each load of transformers stating that the PCB concentration of each unit is < 50 ppm PCBs. However, he only keeps these records until the transformers are paid for. Two or three years ago he was inspected by EPA or TWC (he was not sure which one). When the inspectors arrived at his site, one of them suited up and they began collecting soil samples around his transformer storage yard and home. Sometime later he was notified that the samples were clean. He did not have the names of the inspectors, which agency they were from, photos, or a report of the inspection.

In order for us to recommend that SWEPCO continue doing business with F.J. Doyle, we feel that Mr. Doyle should:

1. Obtain a Texas Water Commission generator ID number for generating solid waste in Texas.

000013

-Page 2-

2. Obtain a TWC transporter ID number for transporting solid waste in Texas.
3. Characterize his wastes through lab testing and obtain TWC waste codes to use when disposing of these wastes.
4. Institute a recordkeeping system.
5. Analyze oil sample(s) from storage tanks for PCB content prior to shipment to Scoggins Oil Co.

The five items above would apply to any transformer salvage business in Texas.

John Flood

SMALL BUSINESS RESOURCES INFORMATION SHEET
F. J. DOYLE SUPERFUND SITE

U.S. EPA Small Business Resources Information Sheet

The United States Environmental Protection Agency provides an array of resources to help small businesses understand and comply with federal and state environmental laws. In addition to helping small businesses understand their environmental obligations and improve compliance, these resources will also help such businesses find cost-effective ways to comply through pollution prevention techniques and innovative technologies.

Office of Small and Disadvantaged Business Utilization (OSDBU)

<https://www.epa.gov/aboutepa/about-office-small-and-disadvantaged-business-utilization-osdbu>

EPA's OSDBU advocates and advances business, regulatory, and environmental compliance concerns of small and socio-economically disadvantaged businesses.

EPA's Asbestos Small Business Ombudsman (ASBO)

<https://www.epa.gov/resources-small-businesses/asbestos-small-business-ombudsman> or 1-800-368-5888

The EPA ASBO serves as a conduit for small businesses to access EPA and facilitates communications between the small business community and the Agency.

Small Business Environmental Assistance Program

<https://nationalsbeap.org>

This program provides a "one-stop shop" for small businesses and assistance providers seeking information on a wide range of environmental topics and state-specific environmental compliance assistance resources.

EPA's Compliance Assistance Homepage

<https://www.epa.gov/compliance>

This page is a gateway to industry and statute-specific environmental resources, from extensive web-based information to hotlines and compliance assistance specialists.

Compliance Assistance Centers

<https://www.complianceassistance.net>

EPA-sponsored Compliance Assistance Centers provide the information you need, in a way that helps make sense of environmental regulations. Each Center addresses real world issues faced by a specific industry or government sector. They were developed in partnership with industry, universities and other federal and state agencies.

EPA Hotlines and Clearinghouses

www.epa.gov/home/epa-hotlines

EPA sponsors many free hotlines and clearinghouses that provide convenient assistance regarding environmental requirements. Examples include:

Clean Air Technology Center (CATC) Info-line

www.epa.gov/cata or 1-919-541-0800

Superfund, TRI, EPCRA, RMP, and Oil Information Center

1-800-424-9346

EPA Imported Vehicles and Engines Public Helpline

www.epa.gov/otaq/imports or 1-734-214-4100

National Pesticide Information Center

www.npic.orst.edu or 1-800-858-7378

National Response Center Hotline to report oil and hazardous substance spills -

<http://nrc.uscg.mil> or 1-800-424-8802

Pollution Prevention Information Clearinghouse (PPIC) -

www.epa.gov/p2/pollution-prevention-resources/ppic or 1-202-566-0799

Safe Drinking Water Hotline -

www.epa.gov/ground-water-and-drinking-water/safe-drinking-water-hotline or 1-800-426-4791

Toxic Substances Control Act (TSCA) Hotline

tsc hotline@epa.gov or 1-202-554-1404

U.S. Small Business Resources

Small Entity Compliance Guides

<https://www.epa.gov/reg-flex/small-entity-compliance-guides>

EPA publishes a Small Entity Compliance Guide (SECG) for every rule for which the Agency has prepared a final regulatory flexibility analysis, in accordance with Section 604 of the Regulatory Flexibility Act (RFA).

Regional Small Business Liaisons

www.epa.gov/resources-small-businesses/epa-regional-office-small-business-liaisons

The U.S. Environmental Protection Agency (EPA) Regional Small Business Liaison (RSBL) is the primary regional contact and often the expert on small business assistance, advocacy, and outreach. The RSBL is the regional voice for the EPA Asbestos and Small Business Ombudsman (ASBO).

State Resource Locators

www.enveap.org/statetools

The Locators provide state-specific information on regulations and resources covering the major environmental laws.

State Small Business Environmental Assistance Programs (SBEAPs)

<http://www.nationalsbeap.org/states/list>

State SBEAPs help small businesses and assistance providers understand environmental requirements and sustainable business practices through workshops, trainings and site visits.

EPA's Tribal Portal

<https://www.epa.gov/tribal>

The Portal helps users locate tribal-related information within EPA and other federal agencies.

EPA Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations before an enforcement action has been initiated, businesses may be eligible for penalty waivers or reductions. EPA has several such policies that may apply to small businesses. More information is available at:

- **EPA's Small Business Compliance Policy**
<https://www.epa.gov/compliance/small-business-compliance>
- **EPA's Audit Policy**
www.epa.gov/compliance/epas-audit-policy

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established a Small Business Administration (SBA) National Ombudsman and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. If you believe that you fall within the SBA's definition of a small business (based on your North American Industry Classification System designation, number of employees or annual receipts, as defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, you can call the SBA National Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247), or submit a comment online at <https://www.sba.gov/about-sba/oversight-advocacy/office-national-ombudsman>.

Every small business that is the subject of an enforcement or compliance action is entitled to comment on the Agency's actions without fear of retaliation. EPA employees are prohibited from using enforcement or any other means of retaliation against any member of the regulated community in response to comments made under SBREFA.

Your Duty to Comply

If you receive compliance assistance or submit a comment to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act or related provisions.
